Forecast for Friday 19 May 2023

Weather: Overnight mist will soon lift and clear this morning. Then dry with bright or sunny spells throughout the day. Feeling quite warm in the sunshine at times. Thicker cloud will reach the western Perthshire hills this evening.

Chance of cloud-free hill tops above 800m: 90%, early low cloud may affect western ranges.

Low Cloud and visibility: In the west around the Loch Tay munros there may be scattered low cloud above 600m at first this morning, this will lift and clear with all summits expected to be clear for much of the day. Visibility will be very good but perhaps turning hazy later in the west as cloud spreads in.

Met Office Aberdeen Meteorologist's View
Quite a warm, humid day at lower levels but still quite chilly at height early in the morning, winds easing by dawn too.

Forecast for Saturday 20 May 2023
Weather: Cloudy overnight with some patchy light rain, perhaps turning heavier for a brief spell, light rain lingering in places, mainly more eastern ranges with mist and perhaps fog patches too.

Maximum wind: Southwesterly 10-15 mph.

Chance of cloud-free hill tops above 800m: 60%, scattered low cloud at times in association with light rain.

Low Cloud and visibility: Scattered or broken low cloud layers likely around more southern and western hills, perhaps towards Killin. Further north and east, towards Loch Muick, GlenTanar and the Angus Glens the hills will see less low cloud. Visibility will be similar, dipping moderate or poor in light rain and drizzle with the best visibility towards Aberdeenshire.

Temperature: **Glens:** Plus 9 rising to 15 Celsius.
At 800m: Plus 4 rising to 8 Celsius.
Freezing level: Above all summits.
